Directions for Use

I always use this craftivity as one of my culminating activities when I teach fractions. This activity is a great way for students to apply their knowledge and understanding of fractions by creating story problems for the other students to answer.

I create a bulletin board display with all of the Fraction Flowers and I title the board *"A Garden Full of Fraction Flowers."* I usually add stems and leaves on the flowers as well.

After the flowers are on the bulletin board, I have my students go out into the hallway in groups of 5 or 6 and they record the answers to the fraction flowers in their math log. Then we review the answers as a group.

It's a fun way to apply their knowledge of fractions and is adorable to look at as well 😊

Have Fun!

This is the
background
circle for the
center of the
fraction
flower.

This is the center of the fraction flower where the students write their fraction story problem.

A large circle with a thick black outline. Inside the circle, there are six horizontal lines spaced evenly, providing a writing area for a fraction story problem.

A second large circle, identical to the first one, with a thick black outline and six horizontal lines inside for writing a fraction story problem.

This is the
background circle
for the center of
the fraction flower.

This is a larger
version.

of the fraction
flower. This is a
larger version.

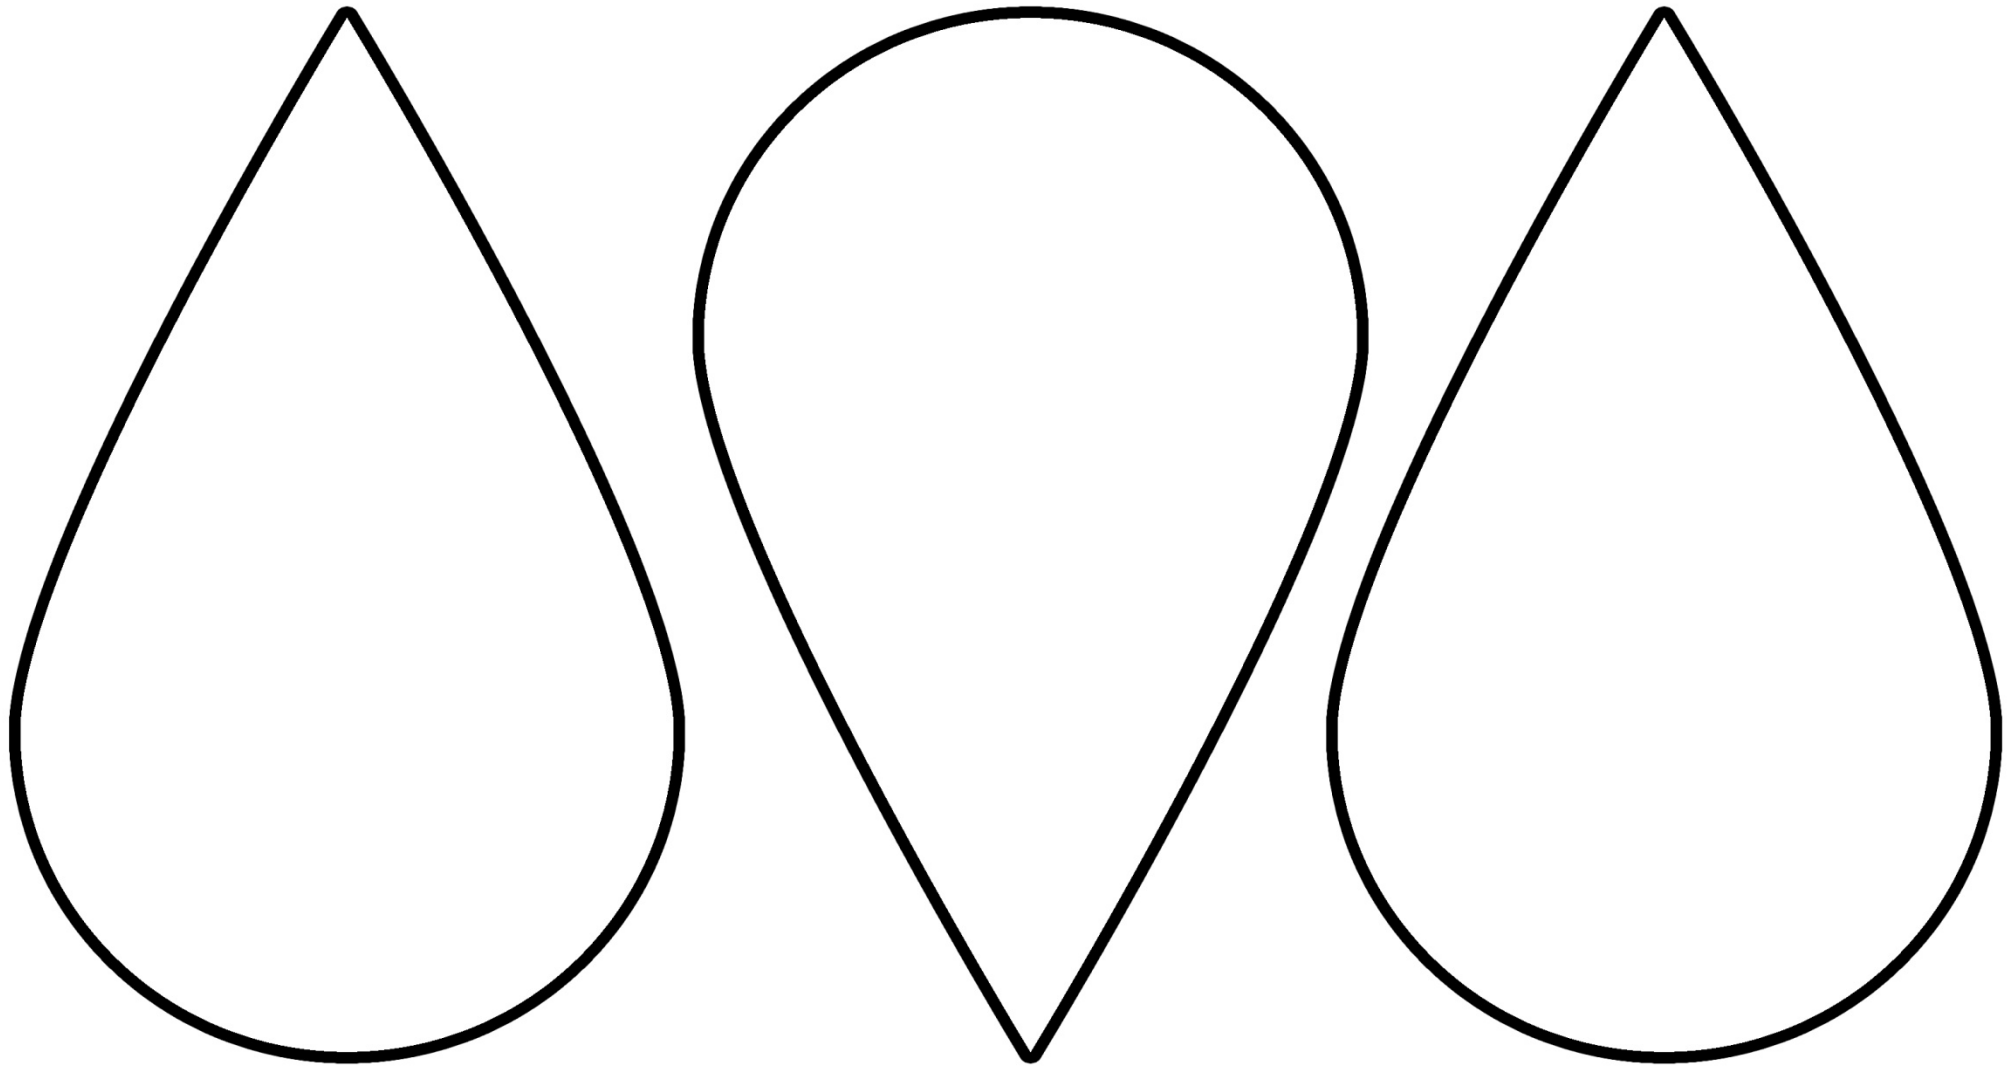

These are leaves for the
stems if you decide to
add stems to the flowers.

These are leaves for the stems if you decide to add stems to the flowers.

These are the petals for the flowers. There are 4 different shaped petals so all of the fraction flowers look unique on the bulletin board.

These are the petals for the flowers. There are 4 different shaped petals so all of the fraction flowers look unique on the bulletin board

These are the petals for the flowers. There are 4 different shaped petals so all of the fraction flowers look unique on the bulletin board

These are the petals for the flowers. There are 4 different shaped petals so all of the fraction flowers look unique on the bulletin board

These are sample Fraction Flowers. The students can use different colored petals or different shades of colors.
